

Company

Paramount is among the largest and longest-established Kitchen equipment trading & Manufacturing companies in the Gulf region. Founded in 1988, Paramount has grown into the leading companies engaged in Trading, Importing, Exporting, Consulting, Designing, Manufacturing, Installing, Commissioning and Maintenance of Kitchen, Bakery, Super-market & Laundry equipment.

Business Case

The client is engaged in Trading and Discreet manufacturing vertical and has the task of Implementing ERP for the same. Unlike standard AX implementations Paramount required more out of the automated and system controlled functionality. Business processes across all countries was to be integrated and revised as per best business practices. The client used multiple software and needed ERP to replace the existing software and streamline the processes.

Solution

Avenir's MS Dynamics AX team fulfilled this business requirement. The company has successfully deployed AX, and enjoys the following advantages

- Solutions resulted in increased operational efficiency.
- Several processes were streamlined reducing redundancy and effort loss.
- Post Go-Live, no critical issues surfaced, and the system ran smoothly.
- Post Go-Live system stabilisation time was only 4 weeks, and financial closure was achieved successfully for very first month of Go-Live.
- Power BI Cubes & MR reporting enabled management and key users to perform all complex business analysis on global level.
