

Company

Byrne Equipment Rental was founded in the UAE in early 1990s and since has grown to become one of the largest plant and equipment rental companies in the Middle East. The company has over 500 employees and 15 offices covering the UAE, Qatar, Saudi Arabia, Bahrain, Kuwait and Oman. The business required a single interface that employees, partners and customers could use for all their tasks.

Business Case

Develop a Web portal for both employees, partners and customers; showcase products, sectors, news and notifications etc.

Solution

Avenir's team of consultants designed a high-quality portal that helped converge a lot of tasks that both staff, partners and clients performed. The site was developed using technologies like SharePoint and ASP .NET.

AML System

- Provide an easy-to-use interface.
- Replace paper based forms with Web forms.
- Keeping all activity against the policy in the system.
- SharePoint lists used to maintain the data consistency.
- Handle all application activities in the system itself; e.g., approve, reject and flag the application.
- Automate the workflows and make the process effortless.
- Built-in reporting tool generates different reports for different business users.
- Easy integrations with existing system.
